 Portfolio

 GitHub

 LinkedIn

Software Engineer specializing in React, Node.js, and MongoDB, with hands-on experience building AI-powered platforms, real-time collaborative systems, and secure payment-integrated applications. Focused on scalable architecture, performance optimization, and production-ready full-stack development.

SKILLS

Frontend: React, Redux, TypeScript, React Router, Tailwind CSS | **Backend:** Node.js, Express.js, MongoDB, REST APIs, Mongoose | **Authentication & Security:** JWT, Firebase Auth, bcrypt | **AI & Integrations:** Google Gemini AI, OpenAI API, Stripe | **Realtime & Tools:** Socket.IO, WebSockets, Postman, Git, Cloudinary

PROJECTS

CareerByAI – AI-Powered Career Platform

[Live](#) | [Frontend](#) | [Backend](#)

Tech Stack: React, Node.js, Express.js, MongoDB, Google Gemini AI, PDF.js

- Deployed CareerByAI with sub-250ms page load on Vercel CDN
- Developed an AI-driven platform for personalized career roadmaps and job matching using Gemini AI
- Implemented CV parsing with automated skill extraction via PDF/TXT analysis
- Designed a custom job-fit algorithm based on skill, experience, and role alignment
- Integrated chatbot-style AI guidance with curated learning resources and secure JWT authentication

CureBay - Healthcare E-Commerce Platform

[Live](#) | [Frontend](#) | [Backend](#)

Tech Stack: React, Node.js, Firebase, Stripe, Tailwind CSS

- Deployed CureBay with 257ms initial load time on Vercel CDN
- Engineered a healthcare e-commerce platform with secure Stripe payments and order management
- Built an advanced medicine catalog with multi-parameter filtering and fast search
- Implemented Admin, Seller, and User role-based dashboards for inventory and order management

CollabNote – Real-Time Collaboration Platform

[Live](#) | [Frontend](#) | [Backend](#)

Tech Stack: React, Node.js, Express.js, MongoDB, Socket.IO, Quill.js, Gemini AI, JWT, Cloudinary

- Deployed CollabNote with sub-50ms initial load time on Vercel CDN
- Built real-time multi-user editing with Socket.IO, live presence tracking, and sub-second synchronization
- Secured the app with dual JWT tokens, Firebase social authentication, Quill.js rich-text editing, and version history

Certificates

- | | |
|---|-----------|
| • Responsive Web Design certificate from freeCodeCamp | July 2025 |
| • Front-End Development Libraries certificate from freeCodeCamp | July 2025 |

Education

B.Sc in Computer Science and Engineering Daffodil International University	Graduated Dec 2025
